#6850 MASTER LOCK PAD LOCK #6271 MASTER LOCK PUCK LOCK

#6271 #6850 MASTER LOCK PAD & PUCK LOCKS DESCRIPTION:

6850 Pad Lock: The Master Lock Pro Series Padlock are designed for commercial or industrial applications. Constructed of 2" wide brass body provides extra corrosion resistance in caustic, corrosive or salty environments, a 1½" tall 3/8" diameter hardened boron alloy shackle is used for superior cut resistance. A dual ball locking mechanism resists pulling and prying and a rekeyable 5-pin cylinder with spool pins making it virtually impossible to pick.

6271 Puck Lock: These Puck Locks are designed for commercial/industrial applications. The lock body conceals the shackle which defeats attempts to pry and cut. Made from 2 7/8" wide reinforced die-cast body it withstands forcible attacks. The rekeyable 6-pin cylinder with spool pins making the lock virtually impossible to pick.

SPECS

6850 Pad Lock

- 2" / 51mm brass body
- 1½" / 38mm tall
- 3/8" / 9mm diameter hardened boron alloy shackle
- 5 pin cylinder

6271 Puck Lock

- 2 7/8" / 73mm wide reinforced die-cast body
- 3/8" / 9mm diameter boron alloy shackle
- 6 pin cylinder

FEATURES

- Rekeyable

OPTIONS

- Keyed alike - KA
- Keyed different - KD

WARNING - All products that require installation or fabrication should never be done until you have the product in hand to take exact measurements. While every attempt is made to make sure product specifications are accurate, there is the possibility the products have been updated or a small variance between production made the measurement off. Installation of products may require some fabrication experience, and in no way does warranty cover installation mistakes.
